PROFESSIONAL PROFILE

Data Analyst with a strong technical foundation and a builder, combining 3 years of Python expertise, 1 year in data visualization, 3 years in spreadsheet analysis, and 1 year of SQL experience to transform raw data into meaningful, decision-driving insights. Skilled at identifying patterns, cleaning datasets, and communicating results clearly.

CORE SKILLS

Data Analysis
Data Visualization
Statistical Thinking
Communication & Problem Solving

TECHNIQUES

Data Analytics
Statistical Data Analysis

TOOLS

SQL
Power BI
Python
Excel & Google Sheets

PROFESSIONAL EXPERIENCE

DATA ANALYST **JAN 2026– PRESENT**

Personal projects

- Identified inconsistencies and missing values in raw datasets (P), developed Python data-cleaning scripts using Pandas (A), enhancing data accuracy by 30%+ and decreasing preprocessing time (R).
- Dealt with large, unstructured transaction data (P), wrote optimized SQL queries (joins, aggregations) to extract meaningful insights (A), enabling faster analysis and cutting down query time by 25% (R).
- Recognized difficulty in understanding raw data trends (P), built interactive dashboards and visual reports using Excel and visualization tools (A), revamping stakeholder understanding and decision-making efficiency (R).
- Encountered repetitive manual reporting tasks (P), automated workflows using Python and spreadsheets (A), saving hours of manual work weekly and increasing reporting consistency (R).
- Analyzed 10,000+ customer and sales records leveraging Python and spreadsheets, applying statistical techniques to identify purchasing trends, resulting in a 20% improvement in decision-making efficiency for business insights.

DATA ENTRY SPECIALIST **SEP 2025 – DEC 2025**

Springboard | Remote

- Collaborated remotely with team members to review 500-1000 contributor audits per week, resolving discrepancies efficiently and sustaining consistent workflow quality.
- Controlled multiple concurrent audit tasks and daily deadlines in a fast-paced remote environment, sustaining 100% on-time completion across assigned work.
- Delivered structured, constructive feedback to contributors, improving task clarity and reducing repeat errors by 25%, resulting in more efficient workflow execution.
- Audited 500+ images and documents monthly to ensure accuracy, completeness, and compliance, reducing data errors by 25% and improving overall audit quality.

EDUCATION

BACHELOR'S DEGREE
Brigham Young University - Idaho

- Bachelor of Science in Applied Technology

2022 – 2026

ASSOCIATE'S DEGREE
Brigham Young University - Idaho

- Major in Web Development

2022 – 2025

PathwayConnect Certificate
BYU-Pathway Worldwide
2021
